About HNC

HNC QLD has showrooms in Stapylton, Sunshine Coast and Townsville. These have been created to inspire and inform designers, architects, developers and builders with a vast range of products on display. The team at HNC have extensive knowledge of available products and interior design trends, always seeking to identify their customers' needs and provide a tailored solution for any project.

The enormous range of products, equipment and services made available through HNC has enabled us to successfully complete a variety of projects including apartment buildings and housing developments, schools and universities, hospitals, sporting stadiums, retirement villages, airport terminals, hotels and motels as well as large-scale commercial complexes.

HNCQ are specialist Suppliers of Electrical Appliances, Tapware and Sanitaryware, Hospitality Fitouts, Tiles and Technology Solutions with our Stapylton Selection Centre being one of the largest of its kind in Australia. We showcase quality brands from leading suppliers who support their products, ensuring excellent quality and after sales service.

WHAT SETS US APART

Our focus is entirely on the construction industry. As a one-stop-shop for plumbing, electrical and technology requirements, we devote our entire efforts to offer tailor-made outcomes for our construction clients. With separate expert sales teams in both our plumbing and electrical departments, our product knowledge is second to none.

Meet Danny

My role as a Plumbing Account Manager at Harvey Norman Commercial QLD allows me to utilise my knowledge of the industry to help clients implement products with maximum results. On a day-to-day basis, I work with builders, developers, architects and designers to work out project specs, manage project feasibility and ultimately decide on the best product for the client's needs.

YEARS IN THE INDUSTRY

I have over 25 years' experience in the industry, with over 17 of these being at Harvey Norman Commercial QLD. My first role at HNC was in the plumbing estimating department, which gave me great insight into the industry. After 5 years in that role, I moved into account management where I am able to use my skills to directly assist our clients.

AREA OF EXPERTISE

Throughout my career, I have gained significant experience working with projects of all sizes, from one-off luxury homes through to large developments, schools, hospitals and residential towers. I also have expertise in front-of-wall and back-of-wall plumbing, allowing me to deliver detailed advice to our clients.

FAVOURITE HNC PRODUCT

We have a whole range of really great brands so I would say that my favourite product would be the Gessi Officine pull out kitchen mixer in matt black finish with a brushed nickel handle.

Commercial Solutions

PLUMBING SOLUTIONS

Utilising the expertise of in-house plumbers and a specialist plumbing department, HNC offers tailored advice to facilitate superior plumbing solutions. As part of our service, we consistently specify best-fit products for both designers and architects, while also working with builders to value manage as required. We won't try and push specific products, either. We supply all the major brands in Australia and work with contractors to pick the right solution for their specific project needs. Now including a complete tile range, HNC Plumbing offers a one-stop-shop for kitchen and bathroom solutions that enables consistently high-quality outcomes for our clients.

ELECTRICAL SOLUTIONS

Our Electrical Solutions are designed to streamline the construction process with fit-for-purpose products and expert guidance. Offering the insight of an experienced electrical team, we can advise on unique solutions that allow you to produce exceptional outcomes within tight budgets and limited timeframes. Our team have also been within the industry for a long time and have therefore developed long-standing relationships with our suppliers. This allows us to be first-to-market with a range of cutting-edge products, giving our clients a competitive advantage in their sector.

TECHNOLOGY SOLUTIONS

HNC Technology delivers home automation systems to diverse clients, ranging from large residential developments and corporate projects right down to single-home solutions. Our team have over 40 years combined experience and are passionate about keeping on top of the latest technology trends. We also pride ourselves on our ability to test new products before putting them to practice, meaning we can jump in with the most accurate advice for every project. With a clear focus on client satisfaction, HNC Technology consistently works with our clients to deliver a solution that is fit-for-purpose, cost-effective where required and that delivers a truly spectacular home or corporate experience.
