LP T8

This multi-purpose luminaire is suitable for domestic and many commercial and industrial applications, providing optimum lighting levels at the lowest cost. Able to be surface mounted, conduit or chain suspended, this is a truly versatile and functional design.

The Davis **Slimline Batten** has been designed to operate the 26mm high efficiency fluorescent tube, but will also accept the 38mm tube. Form and function have been combined to produce a batten that is not only visually pleasing, but also offers easy installation, maintenance and tube replacement.
