

LAMINATE & bench tops

The surface of **polytec's LAMINATE** & bench tops is made from a stain-resistant melamine based resin. The toughness and high impermeability of this surface means that **polytec's LAMINATE** & bench tops should require no more than wiping with a soft cloth, dampened with plain water or a household detergent mix to remove all common household spills.

polytec's LAMINATE & bench tops should be cleaned as follows:

Stains

Using a mild household spray wipe down the benchtop with a soft cloth taking care not to rub too hard. Dry using a soft cloth so as not to leave any solvent on the benchtop.

You may also use Methylated Spirit on a soft cloth, using a circular cleaning motion. Thoroughly clean over the wider area with water and detergent on a damp cloth afterwards to remove any residual Methylated Spirit.

Always ensure that you refer to the recommendations provided by the cleaning product manufacturer before use.

To ensure that your Warranty will not be void, **DO NOT** use any of the following on **polytec's LAMINATE** & bench tops:

Commercial Cleaning Products, Abrasive Cleaners, Scouring Pads or Abrasive Papers, Solvents, Thinners, Turpentine (Turps), Ammonia, Bleach, Acetone, M.E.K. and any other cleaning agents containing Organic Solvents or the above mentioned products.

Please note:

polytec provides a limited seven (7) year warranty on all laminate and benchtop products. The limited warranty covers workmanship & manufacturing defects. If you detect any problems with your laminate or benchtop you need to contact Polytec within 7 years from the purchase date.

Failure to follow the above care instructions will result in damage to the laminate and void your warranty.

polytec's warranty does not cover general wear and tear

Note:

Failure to follow any instructions above will void the Warranty.
